PROFESSIONAL SUMMARY

Java and PHP Developer with over 6 years of professional experience building enterprise-grade systems in banking, insurance, and industrial sectors. Proven track record delivering production applications at **Bank Negara Indonesia (BNI)**, including mobile banking SDKs and fintech integrations. Strong expertise in **Java (Spring Boot/Spring MVC)** and **PHP (Laravel)**, with hands-on experience in **SQL Server, PostgreSQL, MySQL, and Oracle**. Certified in Application Security (EC-Council) and AWS Cloud services. Adept at translating complex business requirements into maintainable, scalable technical solutions.

TECHNICAL SKILLS

Programming Languages - Java - PHP - JavaScript

Frameworks & Technologies - Spring Boot - Spring MVC - Laravel - REST API - Maven - Gradle

Databases - SQL Server - PostgreSQL - MySQL - Oracle - Firebase

Tools & DevOps - Git - Postman - IntelliJ IDEA - Eclipse - Linux - Docker

Security & Cloud - Application Security (EC-Council Certified) - AWS (SageMaker, Generative AI)

PROFESSIONAL EXPERIENCE

PT Klickers — Java Fullstack Developer

Oct 2023 – Present
www.klickersgroup.com

- Developed and maintained an **Agent Management System** for insurance operations using Spring Framework, covering agent onboarding, lifecycle tracking, and commission management
- Designed and implemented **RESTful APIs** for core insurance business processes, ensuring data integrity across SQL Server database schemas
- Refactored legacy codebase to improve maintainability and performance, applying **Clean Code** principles and design patterns (MVC, Service Layer, Repository)
- Collaborated with business analysts and QA teams on system enhancements, bug resolution, and feature delivery across multiple enterprise client environments
- Participated in technical requirement analysis sessions with clients, translating business rules into scalable Java-based implementations

---

PT Kawasan Industri Kendal — IT Software Developer

Jan 2022 – Oct 2023
www.kendalindustrialpark.co.id

- Developed and maintained an **ERP system** using the Laravel framework, streamlining internal business operations including procurement, inventory, and reporting for an industrial park company
- Built Java backend services for an **Autogate System** integrated with hardware sensors for industrial park access control and vehicle logging
- Developed a **Recruitment Web Application** using Laravel
- Implemented an **E-Tender System** using Laravel to support procurement processes
- Worked closely with IT and business teams to align system functionality with operational needs

---

PT Mitra Integrasi Informatika — Junior Developer (Onsite at Bank Negara Indonesia)

Jan 2020 – Dec 2021
www.mii.co.id

- Worked as an onsite developer in the **IoT Group at Bank Negara Indonesia (BNI)**
- Developed and enhanced features for **SMS Banking and SMS Menu** systems
- Developed **TapCash SDK** to enable third-party partner integrations with BNI's e-money platform, used across multiple merchant applications
- Rebuilt **TapCash Go Android Application** from scratch, improving performance and UI/UX for BNI's NFC-based e-money product

- Developed **Bancslink** integration for SMS Banking menu, enabling seamless interbank transaction routing for BNI customers
- Performed **System Integration Testing (SIT)** for Android and iOS applications
- Created unit tests and prepared delivery documentation

EDUCATION

Bachelor of Informatics — GPA: 3.55 / 4.00
Universitas PGRI Semarang, Indonesia
2015 – 2019

Final Project:
Electronic Document Management System for Thesis Examination Documents
